PRESS RELEASE

Expanding Business, SHIP Performance is Getting Solid

Jakarta, June 20, 2023. PT Sillomaritime Perdana Tbk (IDX Ticker: SHIP, “The Company”) has arranged a public exposure that took place in Menara Kuningan Building, Jakarta.

During the public exposure, The Company stated that revenue and net income increased by 32,78% and 26,16% respectively from USD 101,41 million and USD 20,70 million in 2021 to USD 134,66 million and USD 26,12 million in 2022.

“The increase in revenue and net profit are the results of our efforts and strategies by adding more fleets, especially in the Liquefied Natural Gas (LNG) Tanker that gives the most contribution to the rise of the company’s revenue. With the Company’s positive performance achievement in 2022, we will distribute cash dividend in the amount of Rp 17,5 per share with a dividend payout ratio of 12,19% as a part of our commitment to all shareholders,” said Hans Raymond Ekajaya, Finance Director of the Company.

In the year 2022, The Company acquired new vessels in which one of them is the LNG Tanker. The gas tanker segment is targeted by the company while referring to the information provided by the data from the Ministry of Energy and Mineral Resources 2021 in which the ministry claims that Indonesia’s gas reserves have greater potential compared to its oil reserves, therefore The Company believes in expanding into the gas tanker segment in line with the Company’s business continuity efforts.

“We are optimistic to execute our strategy of adding more fleets periodically to expand the Company’s market share. This is certainly done while prioritizing the aspect of prudence in order to protect the Company from the global economic unpredictability impact this year. We will also supervise the market conditions, striving for optimal performance by upholding the Company’s operational excellence and always maintaining the continuity of ongoing contracts.” said Herjati, President Director of the Company.
